

Lachenmeier Stretch Hood Pallet Wrapping
Innovation and flexibility...

Lachenmeier Stretch Hood

Machine types for your specific needs:

Power Flex Ti

For mainly one pallet size. Reaching up to 100 pallets/hour. Very small footprint.

Power Flex TL

For several pallet sizes with minor variations in length and width. Capacity up to 250 pallets/hour. Pallet size range from 600 x 400 mm to 1.600 x 1.400 mm.

The stretch hood is made from a continuous roll of gusseted film which is stretched and applied over the pallet load for maximum load integrity.

Lachenmeier Stretch Hood

Lachenmeier - Your Partner in end-of line Packaging

With more than 45 years of experience and knowledge in the packaging machine and film industry we have the ability to provide innovative solutions that offer a balance between economic savings, functionality and performance.

Main benefits of Lachenmeier stretch hood wrapping

- Our Stretch Hooders offer pallet securing costs competitive to shrink wrap and stretch wrap pallets.
- Optimum load stability. Stretch hood provides a load that can withstand conditions like vibration, shock, temperature, humidity, etc., which occur during transport.
- Stretch hood provides a 5-sided, waterproof load with optimum clarity due to only one layer of transparent film allowing for improved branding.

Lachenmeier Stretch Hood - Proven in a broad range of industries

Multi FleX1

The fully automatic high speed machine for multiple load and film sizes, reaching more than 250 pallets/hour.

Multi Flex XL

The stretch hooder for large loads up to 3200 mm length and 3000 mm height.

Stretch Hood is more than applying an open or closed hood. Also possible is wrapping with a short top cover or a film sleeve - all depending on requirements to the stability of the product.

Fully Wrapped

Top Cover

Film Sleeve

Lachenmeier supplies stretch hood packaging to various industry segments, ranging from palletized goods from the beverage and food industry, bags filled with products from the building and chemical industry, large insulation products like gypsum boards and wooden panels to commissioned products for the retail business.
